Question: 1

The Versa Stateful Firewall feature offers which two security capabilities? (Choose two.)

- A. Unified Threat Management (UTM)
- B. Zone Protection
- C. Distributed Denial of Service (DDoS) protection
- D. Dynamic User Protection (DUP)

Answer: A,B,C

Question: 2

The administrator has to change the IP address of the Internet WAN link from DHCP to Static. The device template under Workflows has been updated with this change, but the change is not reflected in the branch device configuration.

In this scenario, which two steps should you take to solve this problem? (Choose two.)

- A. Commit the appliance configuration to the Device Template.
- B. Commit the Device Template configuration to the appliance.
- C. Update the controller's configuration with the static IP address of the branch's Internet WAN link.
- D. Update the Device Bind Data in Workflows with the IP address and gateway of the Internet WAN link.

Answer: A,B,C

Question: 3

A customer has a site activation planned using script-based provisioning; however, while unboxing the SD-WAN CPE, the engineer notices that the console cable is missing.

In this scenario, what would an engineer do to initiate the script-based provisioning?

- A. Connect a laptop to any LAN port on the device.
- B. Connect a laptop to any WAN port on the device.
- C. Connect a laptop to the management port on the device.
- D. Connect a laptop to the auxiliary port on the device.

Answer: C

Question: 4

What are two ways that a service template would be used? (Choose two.)

- A. as a post-staging template for multiple CPEs
- B. to apply an identical QoS configuration to multiple CPEs
- C. to apply a non-identical service configuration to multiple CPEs
- D. to share an identical service configuration across tenants

Answer: A,B,D

Question: 5

Review the exhibit.

The exhibit shows two screenshots of the 'Add Rules' configuration window, likely from a network security device. The top screenshot displays the 'Source/Destination' tab, which is divided into four sections: 'Source Address', 'Source Zone', 'Source Address Negate', and 'Destination Address'. The 'Source Address' section has a '+ New Address Group' and '+ New Address' button. The 'Source Zone' section has a '+ New Zone' button. The 'Source Address Negate' section has a '+ New Address Group' and '+ New Address' button. The 'Destination Address' section has a '+ New Address Group' and '+ New Address' button. The bottom screenshot displays the 'Applications' tab, which is divided into two sections: 'Applications' and 'SaaS Application Groups'. The 'Applications' section has a '+ New Group', '+ New Filter', and '+ New Application' button. The 'SaaS Application Groups' section has a '+ New Group' and '+ New Filter' button.

Which set of conditions match the policy shown in the exhibit?

A. Traffic flows that meet any one of the following three conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

Application - SharePoint

B. Traffic flows that meet any of the following two conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

In addition, the below condition must also match

Application - SharePoint

C. Traffic flows that meet any one of the following three conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

Application - SharePoint

D. Traffic flows that meet all of the following two conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

In addition, the below condition must also match

Application - SharePoint

Answer: B

Question: 6

Which three components of Versa solution use the Versa Operating System? (Choose three.)

- A. Versa Director
- B. Versa Controller
- C. Versa Analytics
- D. Versa SD-WAN CPE
- E. Versa SD-WAN Gateway

Answer: A,B,D,E

Question: 7

A device is being onboarded with two Internet interfaces. Direct Internet Access (DIA) needs to be configured.

In this scenario, which two statements are true? (Choose two.)

- A. All underlay interfaces belong to the same VR instance.
- B. Each underlay interface belongs to its own VR instance.
- C. Both Internet interfaces can be selected for DIA in workflows.
- D. Only one Internet interface can be selected for DIA in workflows.

Answer: A,B,C

Question: 8

Review the exhibit.

Edit Template - T_LAB_Template_Branch2

Basic Interfaces Routing Tunnels Inbound NAT Services Management Servers

Device Port Configuration

Number of Ports: 10

0 1 2 3 4 5 6 7 8 9

Mgmt WAN WAN LAN LAN LAN

4G LTE WIFI

WAN Interfaces

Port #	Interface	VLAN ID	Network Name	Priority	IPv4	
					Static	DHCP
0	vni-0/0		MPLS		<input checked="" type="checkbox"/>	<input type="checkbox"/>
1	vni-0/1		INTERNET		<input checked="" type="checkbox"/>	<input type="checkbox"/>

LAN Interfaces

Port #	Interface	VLAN ID	Network Name	Organization	Zones
2	vni-0/2		Customer1-LAN	Customer1	--Select--
3	vni-0/3		Customer2-LAN	Customer2	--Select--
4	vni-0/4		Customer3-LAN	Cutsomer3	--Select--

Referring to the gear icon shown in the exhibit, when would you select the gear icon for a VLAN in a template workflow?

- A. when all the devices sharing this workflow template have the default VLAN on the vni-0/1 interface
- B. when all the devices sharing this workflow template have the same VLAN on the vni-0/1 interface
- C. when all the devices sharing this workflow template have different VLANs on the vni-0/1 interface
- D. when all the devices sharing this workflow template have more than one VLAN on the vni-0/1 interface

Answer: C

Question: 9

By default, when configuring DIA through workflows, which protocol runs between the tvl interfaces connecting an Internet VR with the LAN VRF?

- A. static routing
- B. OSPF
- C. BGP
- D. VRRP

Answer: C

Question: 10

What are two node personalities in a Versa Analytics cluster? (Choose two.)

- A. Controller
- B. Search
- C. Analytics
- D. Gateway

Answer: A,B,D

Question: 11

You are asked to implement a third-party application server as a virtual machine on Versa CPE.

In this scenario, which template would you use to accomplish this task?

- A. Stateful Firewall Template
- B. Common Template
- C. Application Steering Template
- D. Service Chain Template

Answer: C

Question: 12

Which two components are part of Versa Secure SD-WAN Head-end? (Choose two.)

- A. Versa Director
- B. Versa Hub
- C. Versa Gateway
- D. Versa Analytics

Answer: A,D

Question: 13

Which statement about a Versa spoke-to-hub-only topology is true?

- A. Spoke devices can send traffic to other spokes through the hub.
- B. Spoke devices can send traffic to other spokes directly.
- C. Spoke devices can send traffic to other spokes through the controller.
- D. Spoke devices can send traffic only to networks behind the hub.

Answer: D

Question: 14

A customer has a single Versa Analytics cluster deployed in a data center. The Versa Director and Versa Controller nodes are distributed between the data center and the disaster recovery sites. The data center goes down for one day.

In this scenario, which statement is true?

- A. SD-WAN CPE live monitoring will be lost during the one-day downtime.
- B. New SD-WAN CPE cannot be deployed during the one-day downtime.
- C. Reachability between SD-WAN CPE will be lost during the one-day downtime.

D. Logging and reporting will be lost during the one-day downtime.

Answer: D

Question: 15

A group of users notified you that they are experiencing a network outage.

In this scenario, which two Versa components would you use to verify the live status of the WAN links? (Choose two.)

- A. Versa Director device monitoring dashboard
- B. Versa Analytics SD-WAN dashboard
- C. Versa Director troubleshooting tools
- D. Versa Analytics sites availability dashboard

Answer: A,D

Question: 16

Which two statements about Versa Analytics are true? (Choose two.)

- A. Versa Analytics provides the ability to configure logging parameters on SD-WAN CPEs.
- B. Versa Analytics provides REST APIs for northbound integration with third-party tools.
- C. Versa Analytics provides centralized logging information about the SD-WAN environment.
- D. Versa Analytics provides real-time traffic monitoring dashboards.

Answer: A,B,D

Question: 17

Which two components are required when creating a device using workflows? (Choose two.)

- A. Device Template
- B. Common Template
- C. Device Group
- D. Service Template

Answer: A,C

Question: 18

Which three features are included in the Versa Operating System? (Choose three.)

- A. HTTP Proxy
- B. CDN
- C. CGNAT
- D. Multicast
- E. NTP server

Answer: A,C,D,E

Question: 19

Which two parts in the SD-WAN policy rules are used to steer traffic? (Choose two.)

- A. Logging
- B. Schedules
- C. Applications
- D. Anti-virus

Answer: A,B,C

Question: 20

Which two statements about the Versa Secure SD-WAN solution are true? (Choose two.)

- A. Versa Director is used for end-user data traffic transport.
- B. Versa Controller provides historical usage reports.
- C. Versa CPEs are activated using Zero Touch Provisioning.
- D. All components support high availability.

Answer: A,C,D

SAMPLE QUESTIONS

*These questions are for demo purpose only. **Full version** is up to date and contains actual questions and answers.*

Killexams.com is an online platform that offers a wide range of services related to certification exam preparation. The platform provides actual questions, exam dumps, and practice tests to help individuals prepare for various certification exams with confidence. Here are some key features and services offered by Killexams.com:

Actual Exam Questions: *Killexams.com provides actual exam questions that are experienced in test centers. These questions are updated regularly to ensure they are up-to-date and relevant to the latest exam syllabus. By studying these actual questions, candidates can familiarize themselves with the content and format of the real exam.*

Exam Dumps: *Killexams.com offers exam dumps in PDF format. These dumps contain a comprehensive collection of questions and answers that cover the exam topics. By using these dumps, candidates can enhance their knowledge and improve their chances of success in the certification exam.*

Practice Tests: *Killexams.com provides practice tests through their desktop VCE exam simulator and online test engine. These practice tests simulate the real exam environment and help candidates assess their readiness for the actual exam. The practice tests cover a wide range of questions and enable candidates to identify their strengths and weaknesses.*

Guaranteed Success: *Killexams.com offers a success guarantee with their exam dumps. They claim that by using their materials, candidates will pass their exams on the first attempt or they will refund the purchase price. This guarantee provides assurance and confidence to individuals preparing for certification exams.*

Updated Content: *Killexams.com regularly updates its question bank and exam dumps to ensure that they are current and reflect the latest changes in the exam syllabus. This helps candidates stay up-to-date with the exam content and increases their chances of success.*

Technical Support: *Killexams.com provides free 24x7 technical support to assist candidates with any queries or issues they may encounter while using their services. Their certified experts are available to provide guidance and help candidates throughout their exam preparation journey.*
